Joelle,

This morning I spoke with Alan Jones of Holnam Inc.'s Morgan office (801) 829-6821 regarding the new Reclamation Contracts. Mr. Jones affirmed that Mr. L. B. Giles has retired from Holnam. The new plant manager is Mr. Barry Lower (pronounced lore) and all correspondence previously directed to the attention of Mr. Giles should now be sent to Mr. Lower.

With regard to changing the two reclamation contracts to reflect Mr. Lower as the new Plant Manager & contact, Mr. Jones conferred with Mr. Lower at the Morgan office who then agreed to allow the Division to make the necessary corrections to the two contracts.

PLEASE SEND A COPY OF THIS MESSAGE TO FILES  
M/045/012 & M/029/001.

**Subject:** Holnam Surety Bonds - M/045/012 and M/029/001

Tony:

I spoke with Virginia Townsend of Johnson & Higgins - underwriters for United Pacific Insurance Company today regarding page one of the surety bond wherein it stated on each of the sureties that the Division approved the Mining and Reclamation Plan on October 25, 1990.

I informed Virginia that the Devils Slide MRP (M/029/001) was approved December 3, 1987 and the Poverty Point MRP (M/045/012) was approved on April 27, 1981. She agreed to have me change the first page of the surety bond for each mine to reflect the correct date rather than return it to her to make the change.

A copy of this will be sent to each file M/045/012 and M/029/001.
